 - Now scheduled from October 25 - October 26. Here is a [document](#) with some further information. D&O members can contribute a poster session, moderator a conversation, give a brief presentation, or a lightning talk. They will have a planning meeting with key collaborators as they move forward. Theresa's hope is that this program can move beyond people sharing what they have done (which is still useful) and more towards a mindset of caring and keeping equity in mind in all of our programming and services.
