**Comparison between 2019 and 2020 Summer Reading Statistics**
Sharon was hoping to be able to compare the results from last year’s survey and this year’s, since it was the same survey questions, but due to the pandemic, many libraries didn’t offer a full summer reading program this year. The numbers that are crossed out represent last year’s statistics but due to the pandemic, Sharon doesn’t think it’s fair to compare them against this year’s statistics.
Leap into Science and Transforming Teen Services: A Train-the-Trainer Approach (T3) trainings
Sharon is one of the state leadership trainers for both of these programs and a schedule of the upcoming training will be available soon. Leap into Science training is open to public or school library staff, after school organization staff and educators who want to learn to provide virtual training on STEM activities for children ages 6-10 and their caregivers in NJ urban and rural underserved communities using the curriculum from the Franklin Institute. T3 trainings are for public and school library staff who work with teens and tweens who want to learn more about how to apply Connected Learning (CL) and Computational Thinking (CT) to provide youth with more agency in determining library programming and engage them in the library community while helping them gain valuable life skills.

CARES Act Funding for E-book Collection Creation
Sharon continues to select children’s and teen books from Baker & Taylor Axis360 ebook collection of children’s, teen and adult e-books for public libraries that the State Library purchased with Cares Act funding. Right now there are only a few multi use e-books in the collection but more will be added over the year. The collection was launched in October. Current Axis360 libraries can integrate the new content seamlessly into their current mix, and will be contacted by their local Baker & Taylor representative for more information. All other public libraries can simply fill out the following form to get started: https://bakerandtaylor.tfaforms.net/85

NJASL Conference Dec. 4-5, 2020
Sharon’s proposal called “Nonfiction Works That Highlight Social Justice for Young People” for middle and high school grades that is part of the Social Justice strand of programs was accepted. The session will be held from 2:15-3:00 PM on Saturday, Dec. 5th.
